Summary — Aspiring software and technology professional with strong knowledge of HTML, CSS, Tailwind, JavaScript, React, Redux, and modern frontend technologies. Skilled at building responsive, user-friendly interfaces with a keen eye for UI/UX design. Currently enhancing backend development skills in the MERN stack to become a full-stack developer. Highly enthusiastic about learning, adapting to new technologies, and growing in dynamic software development environments.

Skills

Technologies C++, C, JavaScript, HTML5, CSS3.
Frameworks & Tools React.js,Tailwind CSS, Redux, API Design, Git, GitHub.
Practices Test-Driven Development (unit testing frameworks),clean/optimized code, technical documentation (inline comments, README files), Version Control: Git (clear commit messages)
Interpersonal Skills Leadership, Team Player, Quick Learner, Active Listener

Projects

Weather App
- A detailed weather description website.
- Using the free API available on the internet ,made an weather app which has beautiful interface one can view the weather details of their current location also they can search weather details of any city accross the globe.
- **Technologies** HTML5,CSS3,JavaScript,API Fetching.

Friend Request Feature
- The complete front-end for friend request feature in big social-media apps using JavaScript, delivering a polished UI.
- **Technologies** HTML5,CSS3,JavaScript,DOM Manipulation

Smart Expense Tracker
- A Expenses Tracker Web App.
- A web app where users can log daily expenses, categorize them, and visualize spending trends using charts. React can be used for the dashboard UI, while vanilla JavaScript handles form validation and local storage.
- **Technologies** JavaScript (ES6+), React (for dashboard), Chart.js, LocalStorage/IndexedDB, Tailwind CSS.

Interactive Quiz Platform
- A Quiz Platform for Revision.
- A quiz app that fetches questions from an API, displays them with timers, and shows results. Core quiz logic (timer, score calculation) is in JavaScript, while React can be used to manage question rendering and result pages.
- **Technologies**JavaScript, React (UI rendering), Tailwind CSS.

Education

Master of Computer Applications	**2025 - Present**
Chandigarh University - Mohali,Punjab	
Bachelor of Computer Applications	*2022 - 2025*
Vaish College of Engineering - Rohtak,Haryana	*CGPA - 6.33*
Intermediate	*2021 - 2022*
A.F.C.Sr.Sec School -Sampla,Rohtak,Haryana	*Percentage - 70.8*
Matriculation	*2019 - 2020*
A.F.C.Sr.Sec School - Sampla,Rohtak,Haryana	*Percentage - 57.2*

Co Curricular Activities

- *Attending workshops, seminars, and hackathons to stay updated on the latest in frontend technologies.*
- *Silver Medal in Kabbadi U-19, Gold Medal in Inter-North Kabbadi Championship.*
